Sify Consultancy Services brings together deep technical expertise, proven transformation methodologies, and a uniquely agile, cost-efficient approach to help businesses modernise with confidence.

We work with your teams to strengthen cyber resilience, unlock AI-driven opportunities, and harness the full potential of the cloud with minimal disruption and maximum ROI.

Why Sify? Our Core Advantage

Agility at Every Stage

Modular, sprint-based engagements for rapid progress, flexibility, and transparency.

Cost-Effective by Design

Frameworks engineered to reduce total cost of ownership and prevent overruns.

Outcome-Focused Delivery

Every recommendation and roadmap is tied to measurable business goals.

Our Consulting Services

Cyber Resilience

Cyber threats evolve daily. Your defences should too. Sify's cyber resilience consultants help organisations build proactive, end-to-end security postures that withstand disruption and support uninterrupted operations. This includes Zero Trust strategy design, governance, risk and compliance (GRC) optimisation, and strengthening identity, endpoint, and cloud environments.

AI Transformation

Sify helps organisations plan and deliver AI initiatives that move beyond experimentation to real business value, with a strong focus on governance, security, and alignment to business outcomes.

Cloud Migration & Application Modernisation

We support organisations in modernising legacy environments and adopting cloud platforms through structured, low-risk migration and optimisation strategies that improve resilience, performance, and cost efficiency.
