sify

... keeping you ahead in India

Converged ICT Services

Trusted India partner for top quality voice termination

- ▶ Sify manages 9.5% of overall India voice with toll quality voice origination and termination.
- ▶ We deliver voice services that comply with ITU-T G 114 recommendations over MPLS enabled next generation global network infrastructure, backed by industry leading service quality guarantees.

Extensive Robust Network

- ▶ Sify's managed NGN core network is built on highly resilient network architecture with redundancy at network, POP and interconnect levels, using carrier grade routing fabric.
- ▶ As the pioneer in the convergence of circuit based and IP based networks, Sify is well equipped to provide unified support for fixed and mobile telephony.
- ▶ Sify's Network-to-Network Interfaces (NNIs) use advanced VoIP and SS7 technology with smooth, efficient digital signalling for voice switching.
- ▶ Sify offers robust, high performance global network solutions for national and international long distance services.

- ▶ Sify is a licensed ILD termination carrier in India with operating license in Singapore.
- ▶ Sify capitalizes its network coverage in India and across the globe.
- ▶ We enable carriers with secure and reliable voice termination across India and rest of the world.
- ▶ Whether you are an aggregator, reseller or someone who originates voice traffic, Sify provides you cost-effective high quality terminations.
- ▶ Options to interconnect and handover traffic at different points on TDM/IP/Nextgen interfaces.
- ▶ Direct interconnects with all the regional telecom companies offering cost-effective, efficient services with committed ASR and ACD, backed by world-class 24x7 customer support.

Worldwide A-Z Termination

- ▶ With our extensive reach globally and by supporting numerous carriers in meeting their India termination needs, we have established direct connections across key destinations.
- ▶ We support A-Z termination globally, with the same level of quality as our much appreciated customer support.

Why Sify is the best choice?

Trusted partner offering Indian & Worldwide termination relieving you from having to interconnect with multiple Indian & worldwide carriers.

Provides flexibility for carriers, with multiple interconnect options supporting both SIP and H.323 protocols and multiple CODEC support.

Rich expertise with complete flexibility for carriers to interconnect at multiple points through its soft switches placed in Singapore.

Managed MPLS enabled next generation core network for superior voice quality.

Global presence with points of presence in UK , USA, Singapore and Asia Pacific with connectivity to multiple global Tier -1 network providers offering business grade services for retail, enterprise and wholesale customer base across the globe through their own PoPs.

Web portal for usage tracking, invoicing and automated alerts across multiple media.

The Sify logo is displayed in a light blue, lowercase, sans-serif font. It is positioned within a light blue triangular graphic that points towards the top right corner of the page. The background of the entire page is black.
