

THE BUILDING BLOCK OF THE AI DATA CENTER AI INFRASTRUCTURE REIMAGINED, OPTIMIZED, AND READY FOR ENTERPRISE AI

50 1 30 **TRILLION KILOMETER MILLION THOUSAND THOUSAND PETAFLOPS Transistors** Drill Holes Components **Connector Pins** of Al Performance of Traces

RUN DATA ANALYTICS, TRAINING, AND INFERENCE WORKLOADS ON THE SAME SYSTEM

ACCELERATION FOR EVERY AI WORKLOAD

TRADITIONAL INFRASTRUCTURE IS CONSTRAINED

Infrastructure silos starve AI workloads or waste capacity.

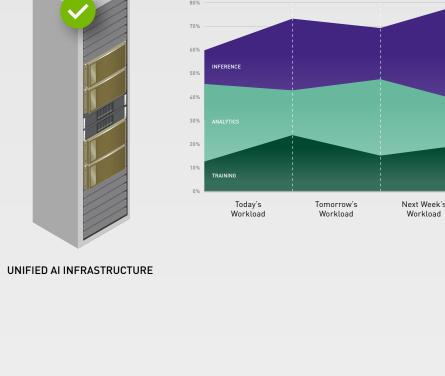

DGX A100 INFRASTRUCTURE IS AGILE

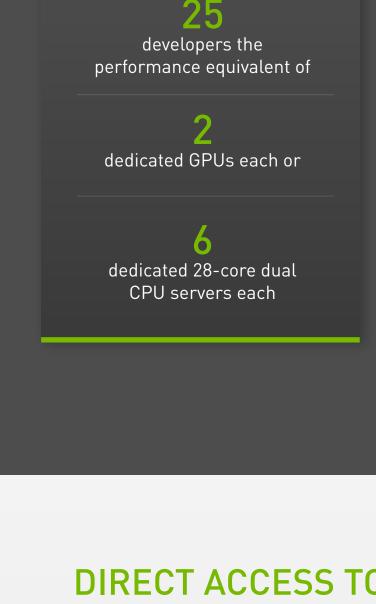

Run any workload on any system for maximized utilization.

Multi-Instance GPU (MIG)

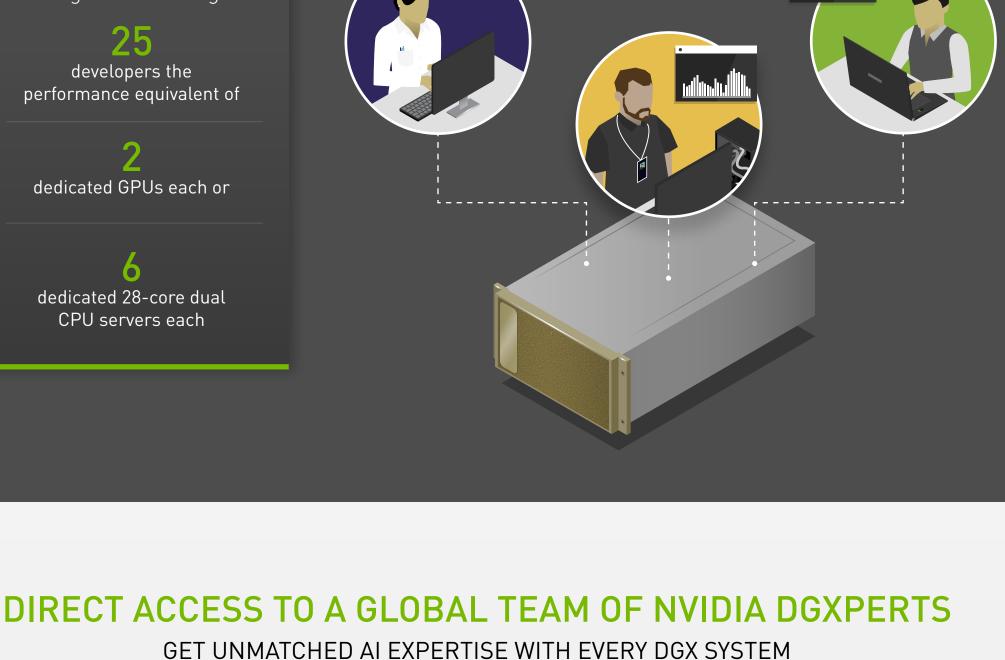

THE MOST POWERFUL TOOL FOR DATA SCIENCE TEAMS

GIVE EVERY DEVELOPER THE POWER TO EXPLORE

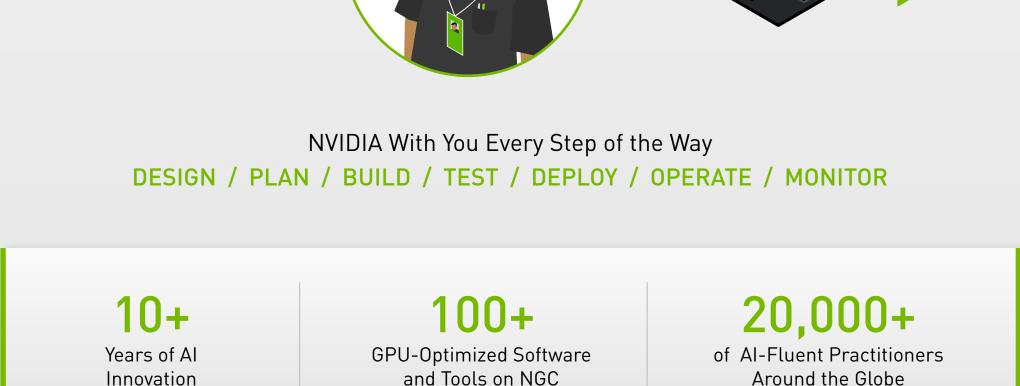

INSPIRATION

in a single DGX A100 gives:

INSIGHTS

TODAY'S AI DATA CENTER

\$11 Million | 25 Racks | 630 kW

DGX A100 DATA CENTER

1/20th THE POWER

1/25th THE SPACE

\$1 Million | 1 Rack | 32.5 kW 5 DGX A100 Systems for Al Training and Inference

Unlock AI in Your Organization Today www.nvidia.com/DGXA100
