Powering The Complete AI Value Chain

AI has fundamentally reshaped how enterprises operate, decide, and scale. As organizations advance in the AI maturity spectrum, the need for a seamless value chain is inevitable.
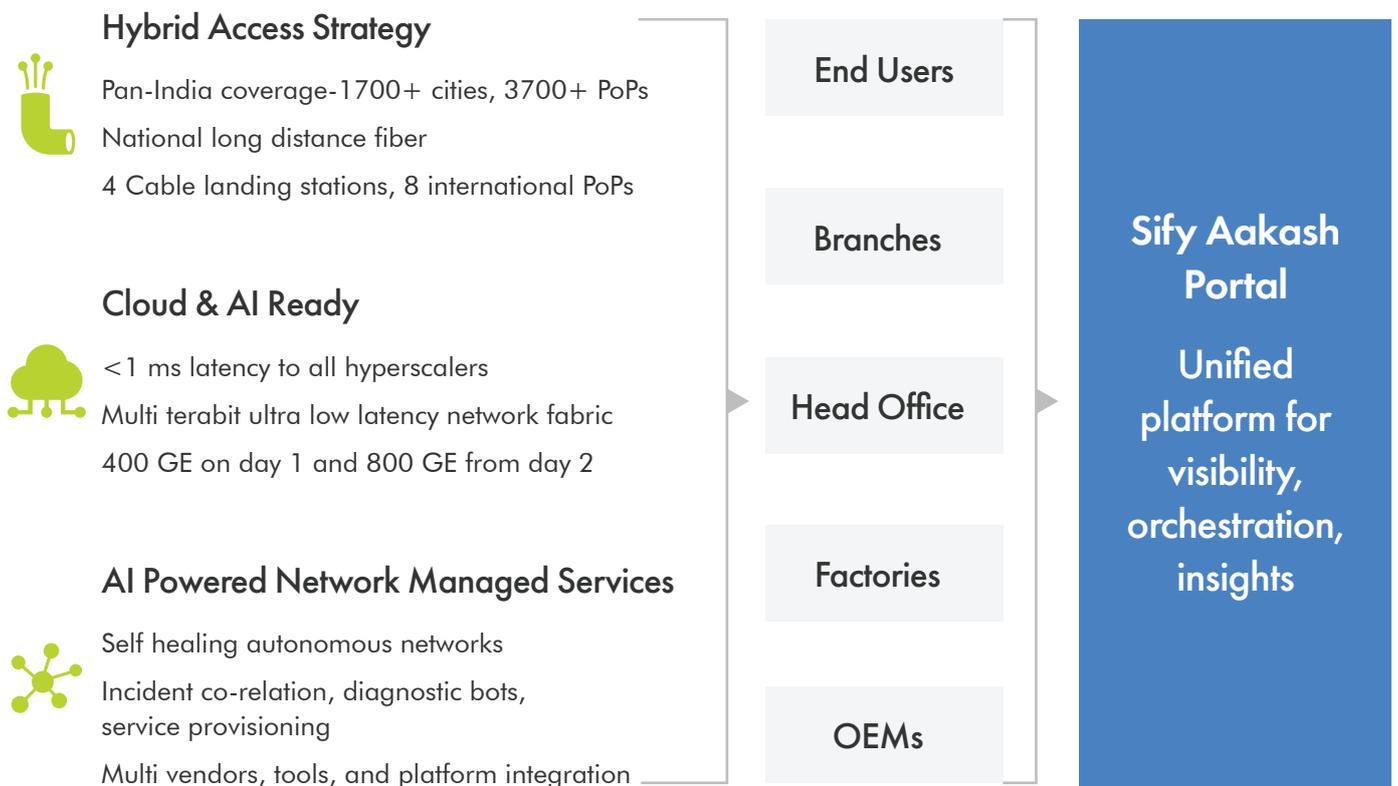

To simplify your AI journey, Sify delivers an integrated, intelligent infrastructure through its AI value chain built on Networks, Data Centers, Cloud, Cyber Security, and Managed Services.

Powered by agentic capabilities and AIOps, this value chain enables you to deploy AI solutions across diverse use cases, improve operational efficiency, and elevate customer experience.

Network	Data Centers	Cloud	Cyber Security	Managed Services

NETWORK
Intelligent, Secure, Connected Ecosystem

Hybrid Access Strategy

Pan-India coverage-1700+ cities, 3700+ PoPs

National long distance fiber

4 Cable landing stations, 8 international PoPs

Cloud & AI Ready

<1 ms latency to all hyperscalers

Multi terabit ultra low latency network fabric

400 GE on day 1 and 800 GE from day 2

AI Powered Network Managed Services

Self healing autonomous networks

Incident co-relation, diagnostic bots, service provisioning

Multi vendors, tools, and platform integration

End Users
Branches
Head Office
Factories
OEMs

Sify Aakash Portal

Unified platform for visibility, orchestration, insights

DATA CENTERS
Hyperscale, Hyperconnected, AI Campuses

AI Ready	AI optimized server hall, network, power, cooling, 130 - 300 kW/rack with liquid cooling
Scalability	14 Data Centers - 188+ MW live, upcoming 11 metro & edge DCs
Digital Ecosystem	Multi terabit, ultra low latency interconnected network ecosystem
Security and Compliance	AI for smart, predictable DC Ops with 10 tier security
Operational Excellence	Autonomous DC Operations with AI & Digital twins
Sustainability	120 MW Green Power live, ESG best practices

|		
India's First NVIDIA Certified DGX Ready Data Center Service Provider for Liquid and Air Cooling	World's first Pay-Per-Use Data Center Colocation, purpose-built for GPU and Neo Cloud companies	**CELEBRATING 25 YEARS OF BUILDING DATA CENTERS IN INDIA**

CLOUD
Scalable, Seamless, Sovereign

MULTI CLOUD MANAGEMENT PLATFORM - INFINITCMP					
	INTEGRATE		**MANAGED**	**SECURE**	
Managed Services	Proactive Management HW, OS, DB, Middleware, SAP Basis		Hybrid/Multi Cloud Management	Remote Infrastructure Management & DC Build	Security Controls Management
Professional Services	Data Center and Cloud Migration		Cloud Assessment, Optimization and Automation	FinOps	SAP Infra Migration
Security	PIM, PAM, IDAM, CASB	Perimeter Security UTM, WAF	Network Security M-DDOS	End-Point Security Anti Malware, EDR	Data Security Encryption and KMS
Infrastructure	sifycloudinfinit Your Enterprise Cloud — Hybrid Cloud, DRaaS Bare Metal, K8S	Cloudinfinit +AI GPUaaS, Cloud Anywhere	Enterprise SAP Grid	Sovereign Fin Cloud / GCC Cloud	Public Clouds
Network	ILL, MPLS, P2P		SD-WAN	Global Cloud Connect	

INFINIT**AI** PLATFORM
Simplify your AI lifecycle

An integrated AI platform, enabling enterprises to choose any cloud, select the best fit models, and deploy governed AI applications anywhere at predictable costs.

Cloud-Agnostic Deployment

Agentic AI Capabilities

AI

Cost Optimization

Verticalized Blueprints

Cloud-Agnostic Design

Operates seamlessly across multiple cloud environments, enabling flexibility in GPU clusters and data pipelines

Cost Efficiency at Scale

Targets 40%+ cost savings through optimized LLMOps, MLOps, and integrated FinOps

Verticalized Blueprints

Pre-built, industry-aligned models with continuous library expansion, accelerating deployment by 50%

Agentic AI and Self-Service

AI agent orchestration, governance, and lifecycle management, enabling autonomous AI workflows

CYBER SECURITY
Securing the Agile Borderless Enterprises 24 X 7

Cybersecurity Advisory Services

Assessing the security landscape of an organization's IT infrastructure and applications

Security Platform as a Service (SPaaS)

Cloud-based service model providing comprehensive security solutions on a subscription basis

Security Operations Center (SOC)

Captive, Hybrid, Remote SOC delivery models for enhanced security posture

AI Driven SecOps

Continuous Security Assurance Monitoring & Automated incident management

AI POWERED FULL STACK MANAGED SERVICES

Advisory

End-to-End Secure Services

Deployments

Operations

IT Infra & Systems

Applications

Professional Services

DataLake & Analytics

Security & Governance

End User Support

AI IN A MAGIC BOX ✦

| Flexible Scalability | Increase Productivity | Predictive Analytics | Faster Time to Market |

Pre-Configured, Pre-Designed, Ready to Deploy

OneSify.AI
Unified Conversational Engagement

AI Powered Managed Services

InfinitAI Platform
Agentic AI, Prebuilt Models, AI Studio, Marketplace, FinOps

Sify CloudInfinit+AI
Orchestration, Provisioning, Sovereign, GPUaaS, InfinitCMP

AI Data Centers
NVIDIA DGX Certified, 130-300 kW Per Rack with Liquid Cooling

AI Network Infra
Multi Terabit, Low Latency Network Fabric, National Long Distance Fiber, Cable Landing Stations

Cyber Security
Advisory, Platform as a Service, SOC

India's Top 10 Banks, Top 4 Manufacturers, 4 Major Hyperscalers, Global Social Media, OTT Players, and 10000+ Enterprises are Built on Sify
