

BEYOND LLMs

Enterprise Grade Agentic AI

InfinitAIZEN Platform

THE ENTERPRISE AI CHALLENGE

Pure LLM Systems Fall Short
in the Enterprise

The Multi Method Solution Orchestrated Intelligence Architecture

INTERACTION LAYER

LLM Agents: Natural language understanding and response generation

ORCHESTRATION LAYER

Workflow Engine: State management, process flow, and agent coordination

DECISION LAYER

Business Rules Engine: Deterministic decisions and policy enforcement

INTELLIGENCE LAYER

ML/AI Platform (Foresight): Risk scoring, fraud detection, and predictive modeling

ORCHESTRATE : Multi Method Agentic AI

- LLMs + Rules + ML Models
- Event driven Architecture
- Human in the Loop
- 100% Auditable

FORESIGHT : ML/AI Intelligence

- Real time feature store
- Low latency model serving
- Drift detection & monitoring
- Versioned model registry

Use the right tool
for the right task

Combine specialized
agents for a system that is:

- ✓ ADAPTABLE
- ✓ TRANSPARENT
- ✓ COMPLIANT

Business Impact

Intelligent Network Diagnosis

Telecom • Enterprise IT • Managed Services

85% Faster diagnosis

70% Process automation

Consumer Lending

Finance • Banking • Credit Unions

70% workflow automation

100% Compliance assurance
