

sifyinfiniTSAFE⁺

**A FULLY CONVERGED
AI-READY NETWORK &
SECURITY PLATFORM**

Powered by CATO Networks

Powering the New Age Network Ecosystem

Legacy networks were built for stability in a predictable world. Today's enterprises operate across cloud, on-premise, and edge locations, demanding speed, scale, and security everywhere.

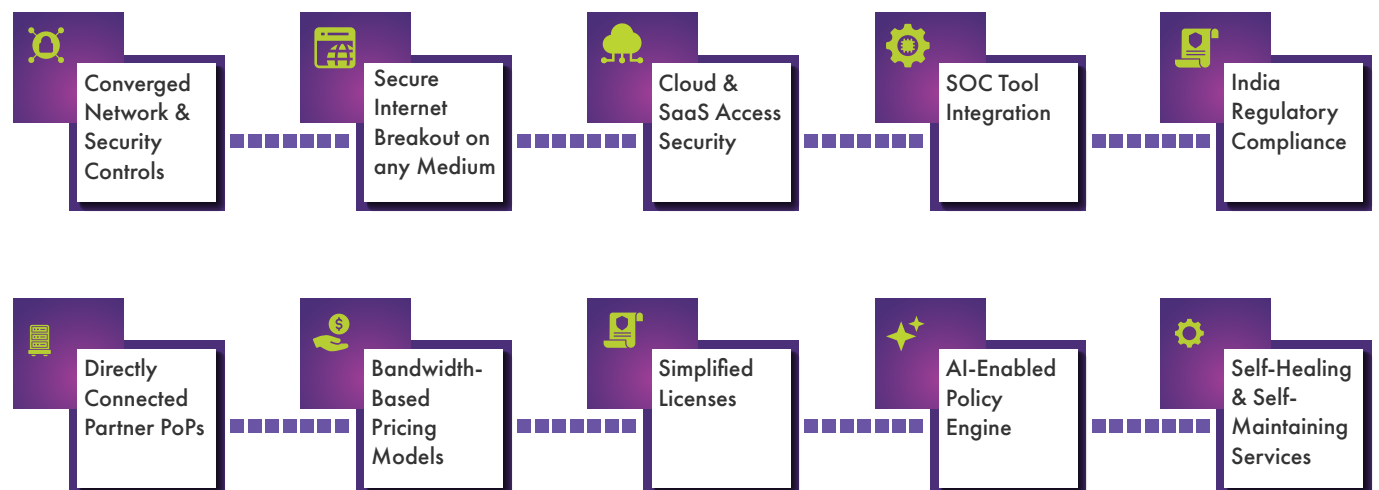

The new age network moves beyond rigid architectures to deliver seamless, intelligent connectivity and supports continuous digital growth.

Navigating the New Enterprise Reality

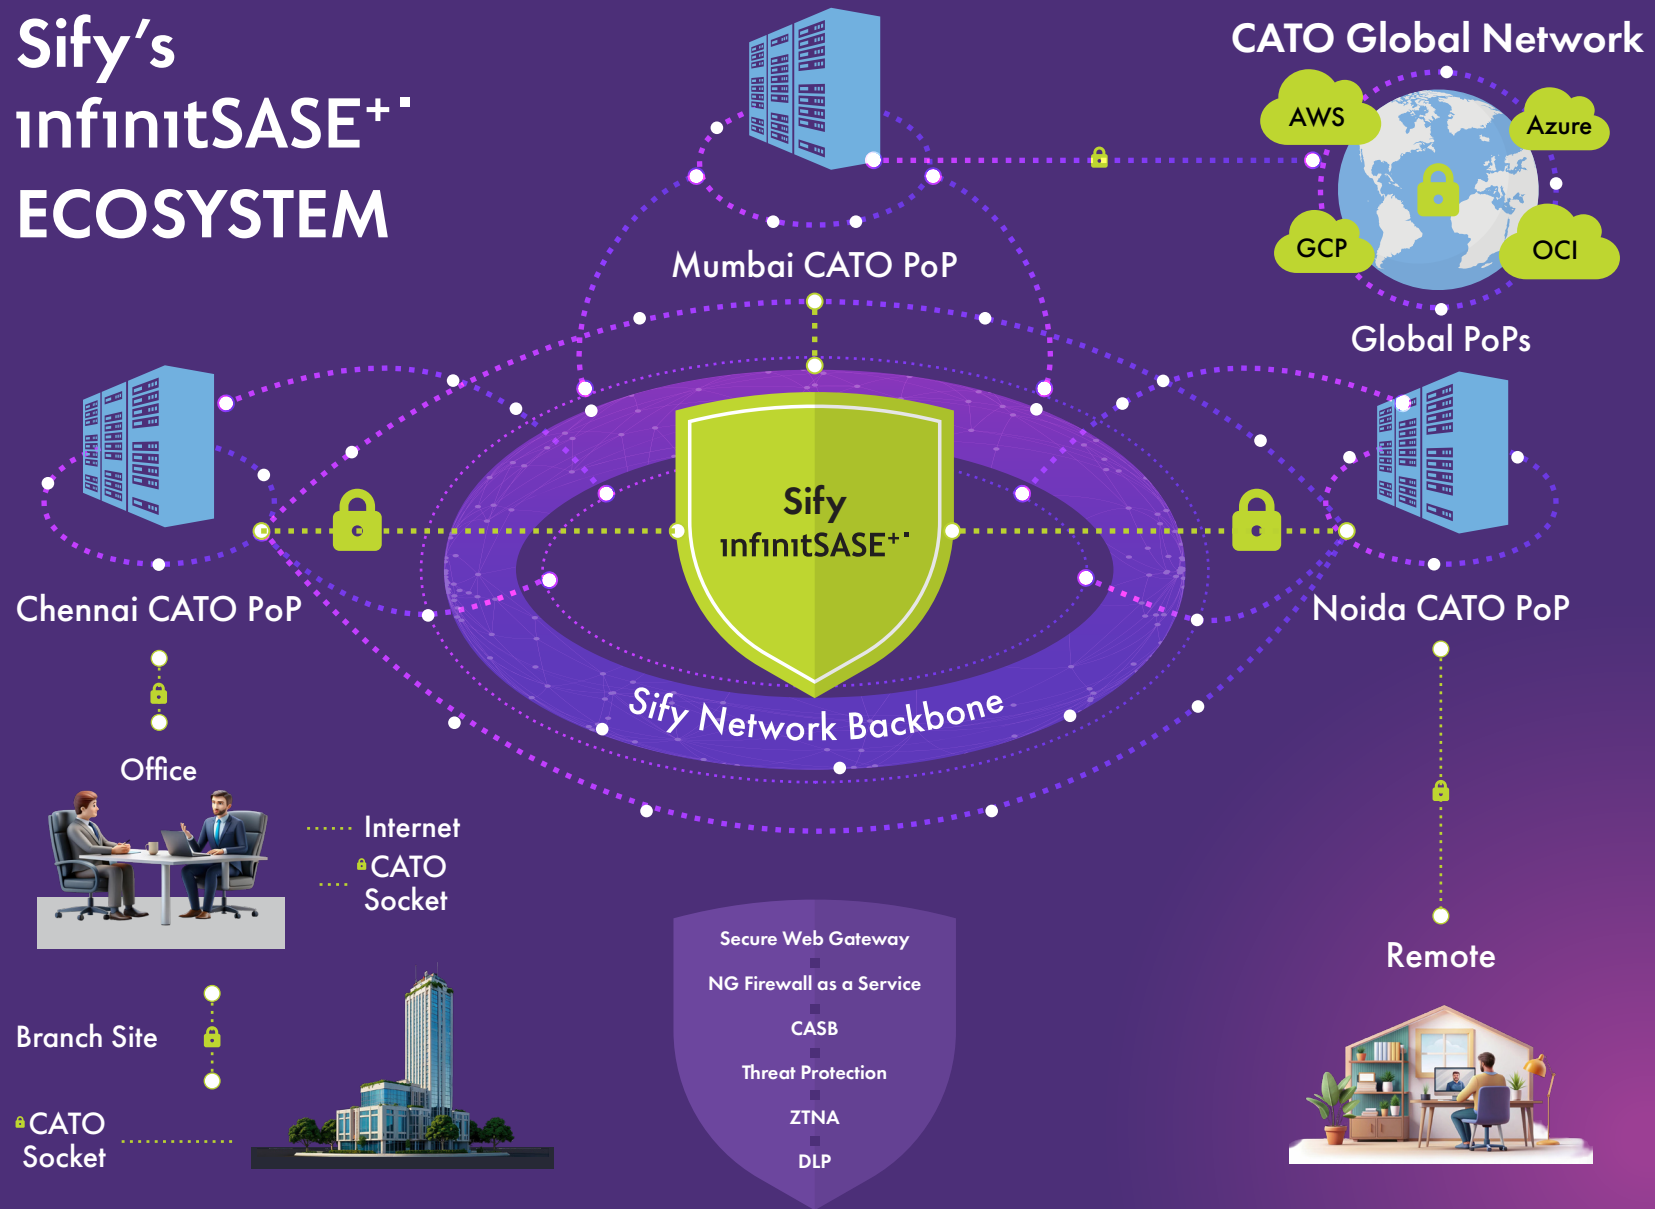

Introducing Sify's infinItSASE+ Powered by CATO Networks

A global cloud platform unifying networks and end-to-end security to ensure seamless connectivity across users, applications, and edge locations.

Sify's infiniTSAFE⁺⁺ ECOSYSTEM

Why Sify InfitSASE+?

**Built for India,
Backed by a
Global Platform**

Combines Sify's nationwide reach and 24x7 support with CATO's proven global SASE platform.

**Converged,
Cloud-Native,
and Autonomous**

CATO's single-pass cloud engine enforces networking and security policies together for low latency and consistent performance.

**No Hardware
Hassles, No
Vendor Sprawl**

Fully delivered as a service — no firewalls, appliances, or point products. One unified platform for network and security.

**Future-Proof
Security and
Network
Architecture**

Supports hybrid work and cloud growth with resilient access and zero-trust enforcement — from any edge to any app, anywhere.

Engage and explore infinite possibilities with Sify InfitSASE+
