Build. Run. Govern.
AI at scale.

In India, AI has left the lab and entered the P and L - *shaping how banks underwrite, how factories schedule, how hospitals triage, how government serves citizens. Capacity is being built at a pace the country has never attempted. Ambition is no longer the constraint.*

What remains open is whose terms your AI runs on.

The next advantage will not belong to enterprises that simply adopt AI. It will belong to those who shape it as their own, choosing their infrastructure, holding their data, governing their models, free to change direction without starting over. Make AI work for your enterprise, not the other way around.

India is building fast at every layer. Scaling is where it stalls.

Infrastructure — 4×

India's data center capacity by 2030 - growing 66% faster than the global average, with long-haul dark fiber demand doubling in a year as AI DCs were linked.

Source: Rubix Data Sciences 2026 · BCG 2026 · Zayo 2026

Platform — 50-60%

Of Indian IT budgets are capex against 20-30% globally. India is building its foundation, not renting it - yet ~90% say their data foundations can't scale.

Source: Bain, India Enterprise Technology Report 2026

Intelligence — <10%

Of organizations have scaled AI agents in any function, though 62% are piloting. India leads deployment at 47% in production - and stalls at scale.

Source: McKinsey 2026 · EY-CII Nov 2025

Your Enterprise. Your Ambition. Your Move. A Four-Pronged Strategy

Choose an architecture that gives you the freedom to evolve. So start where it suits you and keep every other door open.

Outcomes	New revenue streams	100% compliant	Reduce deployment time by 50%	Up to 40% cost savings
Operationalization	Embed AI	Agentic AI	Cloud agnostic framework	Observability and FinOps	Marketplace
Partner ecosystem	Domain expertise	Infrastructure expertise	Complete AI suite	AI literacy and enablement
Data, infra, governance	Assess current infra readiness	Data segmentation and residency	Consolidate fragmented environments	AI gateway and guardrails
Use cases identification	Verticalized blueprints for AI starter kits			
	Fraud risk assessment	Diagnostic assistance	Industrial predictive maintenance	Continuously expanding library

How Sify Can Help: Build. Run. Govern.

One sovereign AI foundation, purpose built for private and public enterprises.

Networks | Data Centers | AI Cloud | Managed Services | Cybersecurity

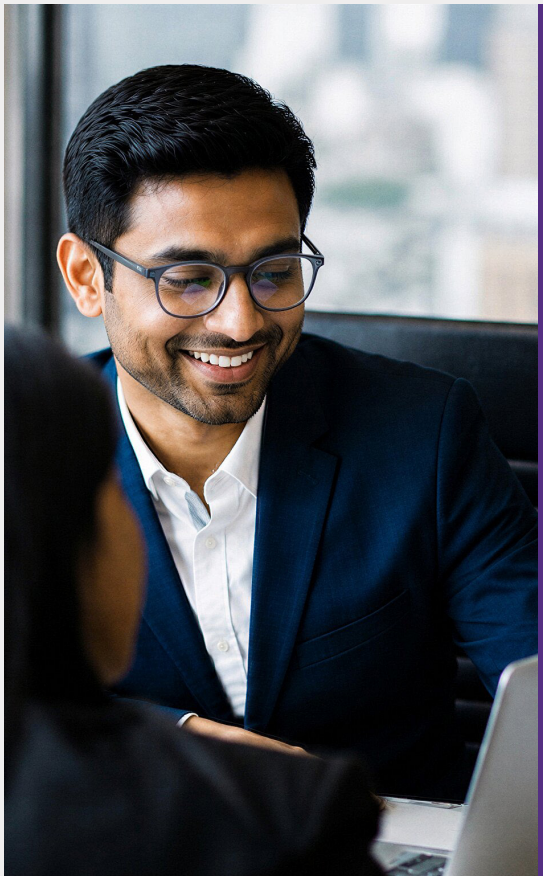

BUILD

Create Resilient AI Platforms Across Your Enterprise

Launch new AI capabilities and expand capacity while building on what already works.

- **Every site, one fabric**
  Multi terabit, ultra low latency connectivity with SD-WAN, SASE and Network as a Service, orchestrated on OnNet and centrally managed across every location.
- **Models stay in India**
  NVIDIA DGX ready, liquid cooled AI data centers, scalable multi tower campuses, colocation ready as you grow.
- **Build and deploy agents faster**
  CloudInfinit^{+AI}, dedicated GPU tenancy and the InfinitAIZEN platform, with pre built blueprints for fraud, diagnostics and predictive maintenance.

RUN

Operate AI Across Your Entire Estate

Every workload, every environment, always on with intelligent operations at scale.

- **Faults resolved before customers notice**
  InfinitAIZEN's Agentic Operations, self healing across networks, data centers, cloud, and applications.
- **Nothing runs unmonitored**
  End-to-end observability across your full estate.
- **One control plane, everywhere**
  Hybrid Operations spanning on premises, private and public clouds, with FinOps keeping cloud spend predictable.

Up to 80% faster time to value | 5x development productivity

Up to 40% cost savings

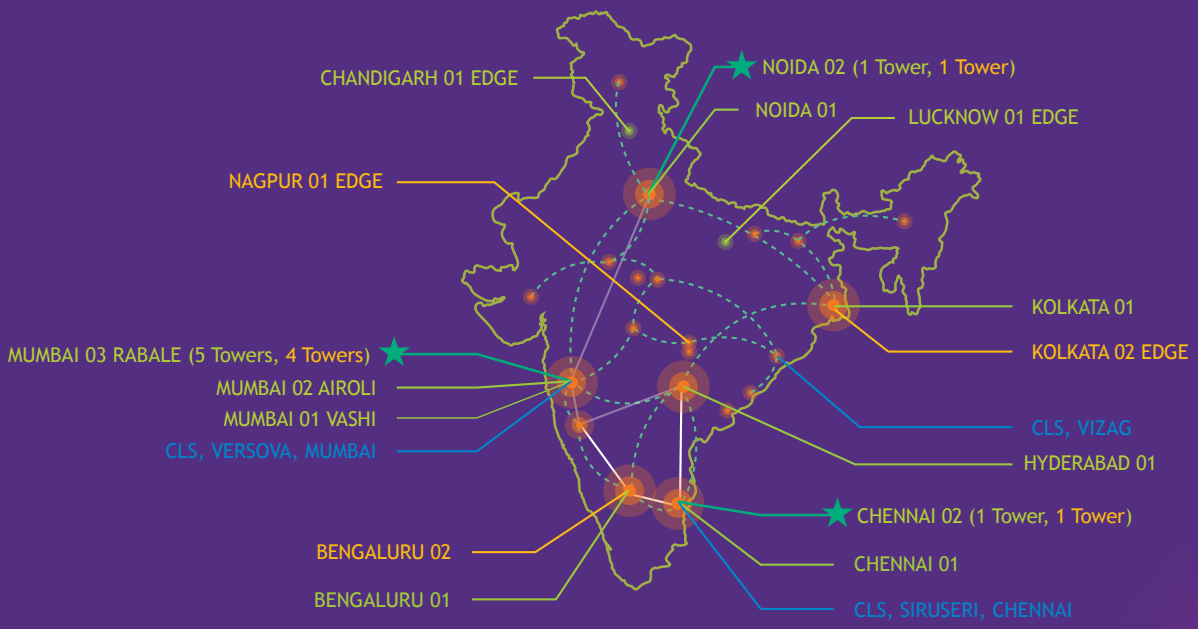

GOVERN

Secure and Govern Enterprise AI, Responsibly

Every identity verified, every workload compliant, risk contained by design.

- **The Trusted Core**
  Every identity verified before access, seamless compliance with DPDPA, sovereignty by design.
- **The Connected Frontier**
  One defense across apps, cloud, data, network, IT/OT, and end users.
- **Adaptive Resilience**
  Intelligence driven operations, from reactive firefighting to predictive defense, with a modernized SOC that contains threats before they reach your data.
- **Security for AI, Governance by Design**
  Guardrails against prompt injection, model inversion and data poisoning, with model governance, responsible AI frameworks and audit ready compliance.

Build at scale on Sify's Sovereign AI Infrastructure

Live DCs | Upcoming DCs | AI DC Campuses | Network PoPs | Cable Landing Stations

India's First NVIDIA DGX Ready Data Center Provider with air and liquid cooling | IndiaAI Mission Partner | MeitY Cloud Partner

Reach	**1,700+** cities, 4,200+ PoPs	**11K+** connected buildings	**120+** interconnected DCs	**4** cloud onramps	**3** cable landing stations
Capacity	**16** DCs at ~200 MW live	**9** upcoming hyperscale and edge DCs	**3** AI campuses at 130+ kW/rack	**100G** to Tbps optical backbone	**300+ MW** renewable contracted

Humans Govern. Machines Execute. Our Agentic AI Operating Model.

End-to-End Orchestration, From Signal to Execution

Sources: Signals from the business	Orchestration: How AI takes over	Outcomes: What business gains
Monitoring alerts Service requests User issues	**Policy governed autonomous operations - multi agents** **L1:** Identifies the issue and its criticality — Classify **L2:** Root cause analysis and solution — Analyze **L3:** Performs the remedial action — Execute **L4:** Closed loop learning — Review	**Higher resilience, faster response, lower cost** Noise reduction Up to 95% MTTR <1 Min OpEx savings Up to 30%

One agent workforce across your entire estate

Networks
Agents to keep connectivity always on

Data Centers
Agents that self maintain core infrastructure

Cloud
Agents to auto recover and scale workloads

Security
Agents that secure and drive compliance

Built for autonomy. Backed by expertise.

What we operate	**900+** managed network, cloud, and IT customers	**100,000+** links, routers and SD-WAN endpoints managed	NOC support across **22+** countries	**2,000+** network, cloud, and data center specialists
What we secure	**300+** MSS, MDR, SOC, and GRC deployments	**3 million** alerts triaged, **1.5 million** incidents resolved a year	**5,000+** IT assets secured, **30+** OEM platforms integrated	**100+** certified security professionals

Your foundation. Your control. Your move.

Our Key Customer Transformation Cases

10,000+ Enterprises trust Sify as their Digital and AI Transformation Partner

GPU colocation with liquid cooling for India's financial leaders, in data centers that host India's top 7 banks, 4 insurers, 4 hyperscalers, global OTTs and social media platforms.

SAP migration to hyperscaler, digital networks integrating IT, OT and people for the world's most geographically diversified steel manufacturer

A leading healthcare provider chose our CloudInfinit^{+AI} for the digital transformation of patient care services while saving 33% on cloud costs

Enabled India's first digital air travel experience that lets you skip all manual verifications with seamless facial recognition

India's #1 bank chose Sify to deploy a modern NOC with AI/ML enabling intelligent and secure network monitoring across global locations

A leading digital publishing enterprise leveraged GPU infrastructure on CloudInfinit^{+AI} to support LLM based processing environments

Certifications and Recognitions

- MeitY AI and Cloud Empanelled
- India's First NVIDIA DGX Ready Air and Liquid Cooled DCs
- Rated 3 DCs
